U.S. AIR FORCE

Architecture Objective

- **Build SAF/FM sub-architecture**
 - Initial focus on baseline architecture (Mid May)
 - Incorporate available objective architectures
- **Incorporate products already built**
 - Utilize DoD BEA products
 - Utilize AF on-going initiatives
- **Assure hierarchical alignment with architectures**
 - AF fits into DoD architecture
 - Transactional solutions fit into AF architecture

U.S. AIR FORCE

Brief Overview

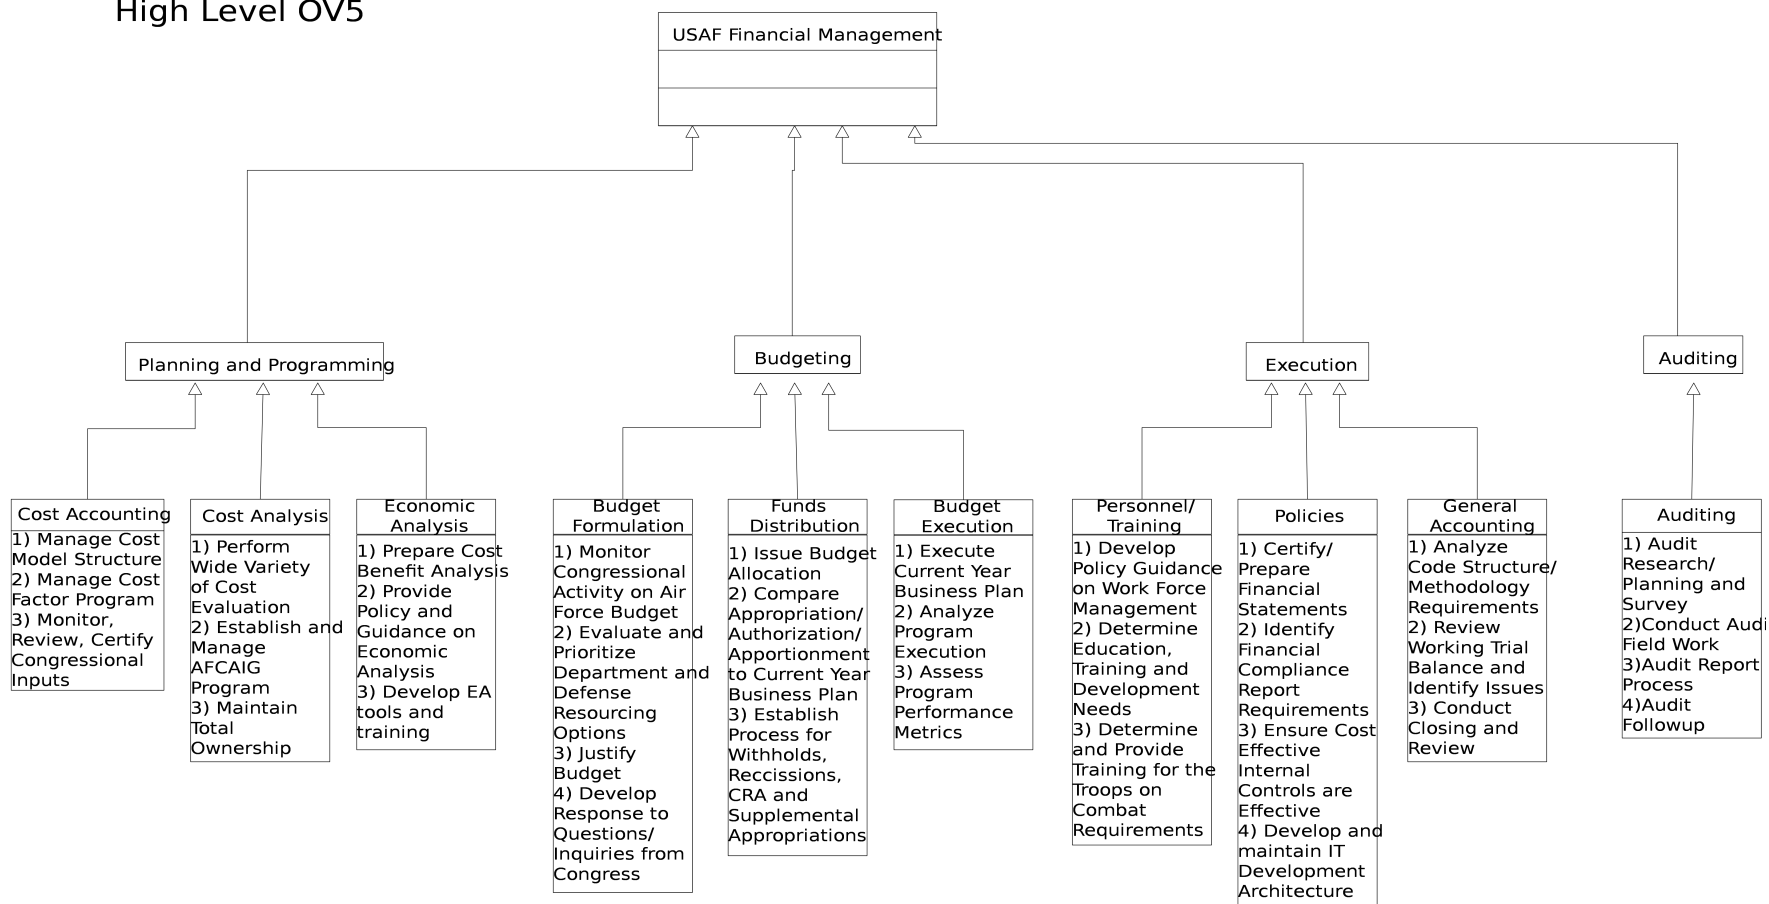

- **This baseline will serve as an inventory of current processes, systems and functionality in use by the Air Force Financial Management community. The inventory will provide a checklist to assure that all required current functionality is present in a future COTS based environment.**
- **It is important to assure that current functionality is present in a future COTS based environment, even if the exact process is not directly brought forward. In many cases COTS processes will replace existing processes while providing very similar or the same functionality.**

SAF/FM OV-5

High Level OV5

Financing the Fight

U.S. AIR FORCE

CONCERNS/ISSUES

- **Who is leading the AF architecture effort?**
- **Who is leading the integration effort?**
- **Who is assuring the products will be in synch?**
- **What architectural products are being used?**

U.S. AIR FORCE

Wrap-Up

- **Continue build of SAF-FM Architecture**
 - **DEAMS & FIRST initiative on board**
 - **Additional help may be coming soon**
- **Begin to partner wherever possible**
- **Begin integration as soon as possible**
- **Continue to utilize existing work already completed**
